PROFILE

Enthusiastic Python and Django developer with a strong interest in backend development and cybersecurity. Currently pursuing a BCA degree and gaining hands-on experience in web development, API integration, and security practices.

EXPERIENCE

DJANGO WEB DEVELOPMENT PROJECTS

- Built dynamic websites using Django, focusing on secure authentication and database management.

- Created RESTful APIs with Django REST Framework for seamless data handling.

CYBERSECURITY & ETHICAL HACKING

- Conducted penetration testing and vulnerability assessments.
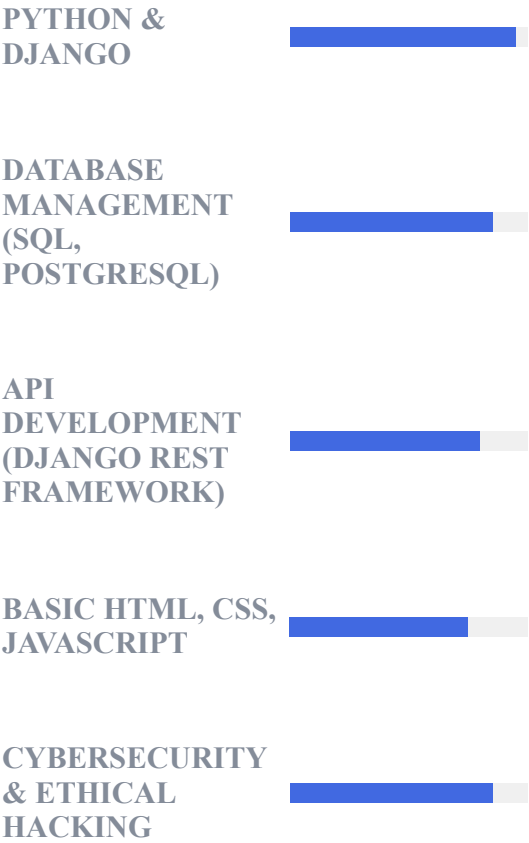

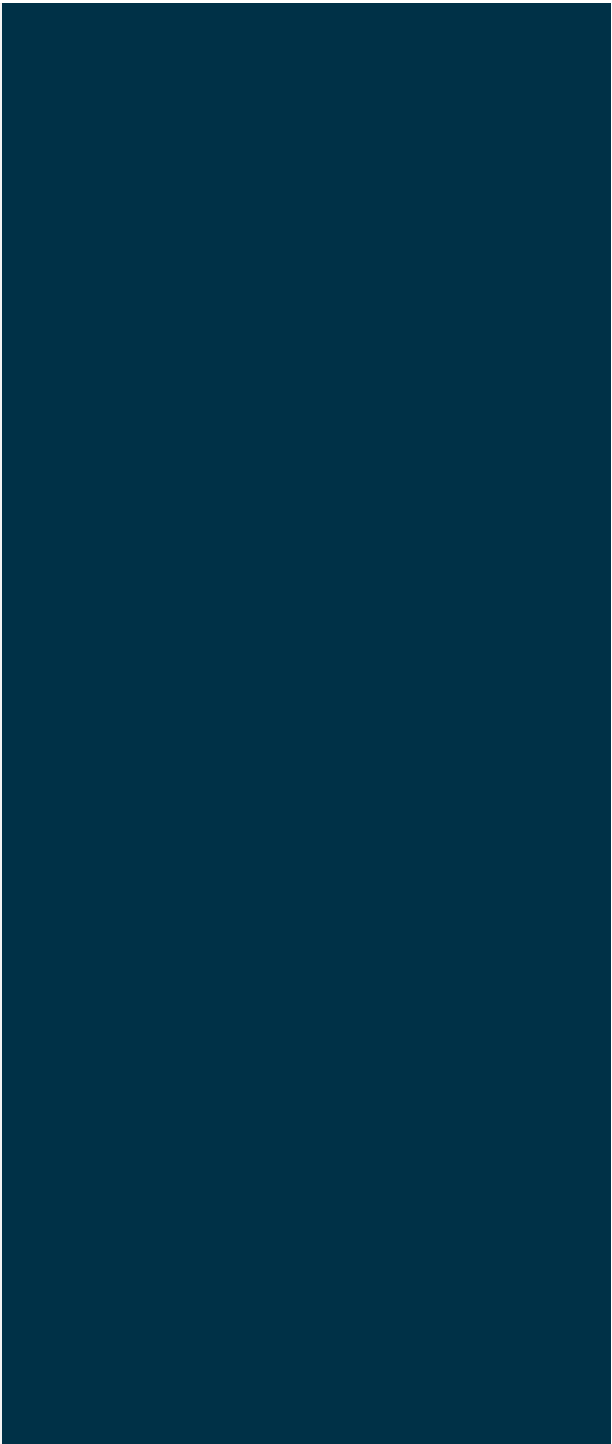

- Participated in Capture The Flag (CTF) challenges to improve security analysis skills.

BASIC FRONTEND DEVELOPMENT

- Implemented responsive UI using HTML, CSS, and JavaScript.

- Designed templates in Django using Jinja2 for a seamless user experience.
